CONTACT DETAILS

One of our core sectors is design for a range of education facilities such as Universities, Colleges, Secondary Schools, Primary Schools and Children's Centres.

LLD is able to offer services tailored to the client and users requirements to provide an inspiring, stimulating, sustainable and sensory external educational environment.

LLD believe that in order to achieve a high standard when undertaking a development project, it is vital to take an approach to landscape and ecological design which addresses sustainability and biodiversity to complement the architecture and the external spaces.

We offer full outline landscape strategies, landscape assessments and appraisals, detailed planning submissions, and detailed hard and soft design schemes for contract implementation and works on site through to completion.

For all enquiries or further information please contact Joe Jackson
